1. The first of the three main parts of the report is a description of the situation in the country at the time of the revolution. This part is divided into three sections: a description of the political situation, a description of the economic situation, and a description of the social situation. The second part of the report is a description of the revolution itself. This part is divided into two sections: a description of the events leading up to the revolution, and a description of the events of the revolution itself. The third part of the report is a description of the situation in the country after the revolution. This part is divided into two sections: a description of the political situation, and a description of the economic situation. The report concludes with a summary of the main findings of the study.
